Session on “Finance Gym”

(15th & 16th December, 2017)

We organized a "Finance Gym" programme in association with The Learning Curve Academy on 15th & 16th Dec. 2017.

Finance GYM (GYM stands for Grow Your Money) is a fun way for the students to learn how to manage their finances before they enter the workforce and start earning money. The students learn about financial planning by playing an **ONLINE simulation game** and attending classroom sessions.

The Finance GYM game is an ONLINE interactive game, in which the students create and manage a virtual portfolio with real investment products to achieve the financial goals they have been given. By playing this game, students learn the basics of financial planning, including basic financial terminology, tax planning and insurance.

There were about 60 participants and the programme was well received by the students. Prof. Tanay Kurode was the trainer. He is certified trainer from Learning Curve Academy. Two student teams were presented with the prizes for their top performance in the simulation game.
