**Programme on “Stock Market and Mutual Fund Awareness”**

**(16<sup>th</sup> March 2018)**

Recently students submitted their preference for the specialization for the MBA programme. And as such they are required to provide the specialized domain specific inputs from the experts. Currently, only a very low percentage of the household savings of Indians are invested in the domestic stock markets. With GDP growth and stable financial markets through Mutual Fund we see nowadays more money joining the race.

Mark Twain once divided the world into two kinds of people: those who have seen the famous Indian monument, the Taj Mahal, and those who haven't. The same could be said about investors. There are two kinds of investors: those who know about the investment opportunities in India and those who don't.

And on this theme we organized programme by Chandrashekhar Thakur sir on “Stock Market and Mutual Fund Awareness” in association with Central Depository Services (India) Ltd. (CDSL).

Programme was conducted on 16<sup>th</sup> March 2018 from 11.00 am to 1.00 pm. There were more than 70 student participants and it served the purpose of creation of awareness of stock market and mutual fund. There was explanation provided on demat accounts also. The session was very informative and interactive.
