Programme on “Commodities Market”

(23rd March 2018)

This session is a continuation to the specialized domain inputs by the industry experts. With some orientation / overview of stock markets, we organized this programme to provide overview of commodities markets.

We trade in stocks over Stock Exchanges; there is possibility of trading in metals and agriculture products on commodities markets. Awareness of commodities markets is very low and SEBI has initiated some measures to increase awareness. There are few exchanges exclusively dealing in commodities and one of them is MCX i.e. Multi Commodity Exchange of India Ltd.

Warehousing and delivery based trading in commodities, speculation in derivative products based on commodities, market depth and awareness are some of the challenges faced.

There are many myths associated with commodities markets and derivative products being offered in India and internationally, and to get some clarification we have organized this programme by **Shrikant Koundinya** to provide guidance on “Commodities Market” in association with Multi Commodity Exchange of India Ltd. (MCX).

Programme was conducted on 23rd March 2018 from 11.30 am to 1.00 pm. There were more than 50 student participants and it served the purpose of creation of awareness of commodities market. The session was very informative and interactive.
