

Best Summer Internship 2017 Award by DataKatalyst

Our IMERT student from MBA II year (Marketing), Mr. Abhijit Shendge, won Best Summer Internship 2017 award for his contribution at Datakatalyst. Recognized as one of the disruptive big-idea HR Tech startups in India, Datakatalyst is a pioneer in successfully complementing traditional data gathering of blue and grey-collared candidates with use of biometric technology and cloud computing to help companies source perfect teams from the comfort of their office.

Out of 28 candidates from various Business schools pursuing summer projects (SIPs) at Datakatalyst, Abhijit was able to grab the title on account of his target achievement in the field of Market Research. He received a trophy, an appreciation certificate apart from nice stipend from Datakatalyst. Prof. Vivek Dighe and prof. Ruchira Tapre guided him for the project.
