

INSTITUTE SOCIAL RESPONSIBILITY

RESQ VISIT SUMMARY

Prof. Aparna Shastri along with a group of 11 students visited ResQ on 18th and 19th December, 2018.

ResQ's manager took the entire group on a quick round explaining them how and what ResQ does?

While walking through various sections, the manager narrated some of the recent rescue stories of pedigreed dogs- how these dogs were used for breeding and then abandoned when they fell sick due to illnesses. Students were amazed to listen to these incidences of rescue and rehabilitation by ResQ.

Students spent two days helping ResQ employees in taking care of animals.

At the end students were feeling happy for their contribution towards this noble cause.
