Session on “River Cleaning and River Conservation” under “Chala Januya Nadila” campaign

Rivers support biodiversity. By protecting and restoring our rivers, we play a critical role in bending the biodiversity curve. Keeping in mind the this notion, Marathwada Mitramandal's Institute of Management Education Research and Training in Association with Marathwada Mitramandal's College of Engineering conducted an awareness session on “**River Cleanliness and River Conservation**” under “**Chala Januya Nadila**” campaign for our students and staff members on 6th October 2023. Coordinators from an NGO- Jeevitnadi conducted a session wherein they guided the students and the staff members out various activities conducted by the NGO in river cleaning and river conservation. They also made the audience aware about how individual citizen can contribute towards this noble cause by reducing the use of harmful chemical and by not throwing household waste and garbage in the rivers. 63 Students and 7 faculty members attended the session.
