## Event Report

Marathwada Mitra Mandal's Institute of Management Education Research and Training (MM's IMERT) in collaboration with Makeintern – IIM Bangalore, under the guidance of Dr. Shubhangee Ramaswamy, Director, organized a five-day Equity and Stock Market Trading Training Program from 9<sup>th</sup> to 13<sup>th</sup> March 2026 for students. The sessions were coordinated by CA Sanu Purandare, while overall coordination was managed by Prof. Vivekanand Gaikwad. The sessions were conducted by Mr. Rahul Kolkar, who provided students with both conceptual knowledge and practical exposure to stock market trading and financial analysis.

The program covered fundamental topics such as financial instruments, basics of the stock market, IPOs, and Indian and global market indices. Students were also introduced to technical analysis concepts including candlestick patterns, Dow Theory, and basic fundamental analysis of companies. Analytical platforms such as TradingView and Screener were demonstrated to help students understand real-time stock chart analysis and company financial data.

The training also included concepts of trading strategies such as swing trading, position sizing, and the use of stop-loss to manage trading risk. Students performed practical activities such as analyzing stock patterns, conducting fundamental analysis of companies, and studying trading charts. The sessions also introduced financial modelling, where students developed basic financial models and forecasting models for companies such as Bharat Electronics Ltd. and Mahindra and Mahindra Ltd.

Overall, the program provided valuable practical learning and enhanced students' understanding of stock market operations, trading strategies, and financial analysis, thereby helping them develop important analytical and investment skills.
