MM' IMERT celebrated World Environment Day on 5th June 2026 by organizing two meaningful activities: Pledge Taking Activity and E-Waste Collection Drive. The programme aimed to create awareness about environmental conservation and encourage responsible environmental practices among all.

Students, teaching staff, and non-teaching staff enthusiastically participated in the activities. The celebration commenced with a Pledge Taking Activity, where participants took a pledge to protect the environment and contribute towards a cleaner, greener, and more sustainable future. They pledged to adopt eco-friendly practices in their daily lives, reduce waste generation, conserve natural resources, and avoid activities that may harm the environment.

An E-Waste Collection Drive was also conducted as part of the celebration. Students and staff actively contributed by bringing unused, obsolete, and discarded electronic items for proper collection and disposal. The drive highlighted the importance of responsible e-waste management and encouraged participants to recycle electronic waste instead of disposing it improperly.

The activities witnessed active participation from students, teaching staff, and non-teaching staff. Through these initiatives, participants gained a better understanding of environmental issues and the importance of individual responsibility in protecting nature. The programme successfully promoted environmental awareness, sustainable practices, and a sense of social responsibility among all participants, reinforcing the message that small collective efforts can make a significant difference in preserving the environment for future generations. The event was successfully conducted under the guidance of the Director Dr. Shubhangee Ramaswamy, whose continuous support and valuable guidance played an important role in the successful organization of all activities.
