S. No. 18, Plot No. 5/3, CTS No. 205, Behind Vandevi Temple, Karvenagar,

Objectives of the Activity:

- To provide students with practical exposure to industrial operations and manufacturing processes.
- To understand the application of automation, engineering, and advanced manufacturing technologies in the industry.
- To bridge the gap between theoretical concepts taught in the classroom and their practical implementation.
- To familiarize students with innovative industrial solutions and real-world project execution.
- To provide students with an opportunity to interact with industry professionals and understand current industry practices.

Outcomes of the Activity:

- Gain firsthand exposure to real-world industrial and manufacturing operations.
- Understand the practical application of automation and engineering technologies.
- Develop awareness of automated systems through the demonstration of the Automated Car Parking System.
- Understand how innovative ideas are transformed into practical industrial projects.
- Relate classroom concepts with real-world business and industrial practices.

Description of the Activity:

An Industrial Visit to Wipro PARI Engineering & Services Pvt. Ltd. was organized on 12 September 2026 for MBA students. The visit provided students with valuable exposure to industrial operations, automation, engineering solutions, and project execution.

During the visit, students were introduced to the company's manufacturing and engineering capabilities. The industry representatives explained the processes involved in designing, developing, and implementing automated industrial solutions.

A key highlight of the visit was the demonstration of an Automated Car Parking System, through which students gained an understanding of how automation and engineering technologies are applied to develop efficient space-management solutions.

Students were also introduced to an innovative project developed by the organization, providing them with insights into innovation, problem-solving, technology integration, and practical project implementation.
